# WHY CHOOSE WICKES

**To make the process of buying and installing your new bathroom as fun, exciting and stress-free as possible, we offer the services of a personal Design Consultant who will be your key contact when discussing your new bathroom with us.**

Every customer has a unique vision of their dream bathroom; we believe the best way of bringing that dream accurately to life is by offering you a dedicated Design Consultant to personally support and guide you through every step of the process, from providing design inspiration all the way through to seeing your bathroom fitted and ensuring you are happy with the results.

Our stunning range of 17 bathroom suites and the help of a personal **Design Consultant** are just the start of what we have to offer. Here are a few more reasons why shopping with Wickes is right for you.

#### **We work around you**

We always offer a free, optional home visit. However if you'd prefer to measure up yourself we're ready for your instructions, either in store with your Design Consultant or via [wickes.co.uk](http://www.wickes.co.uk). We're here to support you as much or as little as you need.

#### **A bathroom for every lifestyle and budget**

From modest en suite toilets to grand family bathrooms, from cosy traditional stylings to sleek modern surfaces, from big budgets to small budgets – our stunning range of 17 suites is flush with options to bring your dream bathroom to life.

#### **Complete your whole room with Wickes**

Whether you can see yourself buying a new mirror, or you're looking towards lighting and paint to brighten up your space; we offer a fantastic selection of complementary products to help you add those personal touches that will make your bathroom truly unique.

#### **Our expert installation service**

Our experienced Installers go through a rigorous selection process before we approve them to become part of the Wickes Installation team, ensuring you a smooth installation that comes with a 24 month workmanship guarantee.

#### **Our products are built to last**

We're confident in the quality of our products, and confident that your new Wickes bathroom will feel new for a long time. In fact, we're so confident that each of our products comes with a guarantee.

#### **Price Promise**

Our Price Promise guarantees you're getting the best deal out there. Found a comparable product cheaper locally? We'll drop our price to match it. Feel free to get in touch and ask us about how you can make a request.

#### **Finance**

We understand that it's not always feasible to pay for your bathroom up-front with a lump sum. Our range of flexible finance options is designed to give you room to manoeuvre so you don't have to compromise on your dream bathroom.

**Fiona Cassidy**  
Wickes Design  
Consultant

# 7 STEPS TO YOUR NEW WICKES BATHROOM

At Wickes we know how important your Bathroom is to you. We also believe that buying a Bathroom should be exciting, fun and with as little stress as possible. That's why we offer a service that covers the entire journey of creating your dream Bathroom from start to finish; from providing you with ideas and inspiration all the way through to installation and aftercare.

## Be inspired

This brochure has been designed to offer guidance and inspiration as you plan your dream bathroom. Our 17 stunning bathroom ranges can be browsed in this brochure, via our website, or by visiting one of our showrooms where a member of our team will be happy to offer you guidance on your choice and answer all your questions and queries.

## Talk to us

Whether you have a few ideas bubbling away already, or you're having trouble choosing just one option from our diverse range, feel free to get in contact at your convenience. You can book an appointment via our website or by visiting one of our stores, where one of our expert Design Consultants will always be on hand to discuss your requirements and organise a no-strings-attached home visit.

## We'll help you as much as you need

Our free home visits enable us to fully understand the space you want to transform. With your personal Design Consultant always on hand, you get to decide how much work you want us to do for you. We'll take all the measurements and guide you through your options, or if you prefer we'll take a back seat and listen to your instructions while working from the measurements you provide us. And don't forget, once you're ready you can place your order online at [wickes.co.uk](http://wickes.co.uk).

## Bringing your ideas to life

Your Design Consultant will personally craft your unique bathroom design, after which you will be invited in store to work with us on making sure we have fully understood your vision. We'll also talk to you about the advantages of using the Wickes Installation Service. If you plan to install your bathroom yourself we won't take this as a cue to abandon you; we'll be there to support you for as long as you need us.

## Funding your project

Your personal Design Consultant isn't limited to only helping with the design process, they are also able to give you an instant quote and offer funding advice for your project. At Wickes we offer flexible finance packages designed to make your new bathroom more affordable.

## Making it happen

With your designs finalised it's now time to start breaking ground. Before a delivery and start date are agreed, your Wickes Installer will conduct a full technical survey and discuss any potential work involving electricity or plumbing. If you've chosen to use your own installer, the next step is to arrange your delivery date. No matter which option you choose, your personal Design Consultant and our Customer Service Team will be on hand to offer support throughout the whole process.

## Enjoy your new bathroom

Once you're finally standing in your dream bathroom, with everything perfectly matching your vision, you will be asked to sign a completion note. The job is finished, but our work continues. Shortly after completion, our Customer Service Team will be in touch to talk to you about your experience with us. We'll check in again with you after a couple of weeks to make sure that your bathroom continues to meet your expectations.

# SUITES TO SUIT YOUR NEEDS

## SUITES

We work hard to ensure that the process of buying and fitting your new bathroom is as fun and stress-free as possible. However, all the extra support and help we offer wouldn't count for anything if it wasn't built around our truly stunning range of 17 bathroom suites. We believe that our selection of contemporary, classic and traditional bathrooms is sure to make a splash, which is why we are confident that your dream bathroom is waiting to be discovered over the next few pages.

# TIDY BATHROOM, TIDY MIND

## FURNITURE

We think furniture in your bathroom is just as important as the suite itself. The great thing about Wickes bathroom furniture is that it's completely flexible, allowing you to maximise space in a way that suits your lifestyle. Choose from either our collection of Fitted Furniture or Modular ranges or even combine the two so you can create something truly bespoke to you.

### FITTED

Clean and concise, offering a storage solution for even the smallest of bathrooms.

### MODULAR

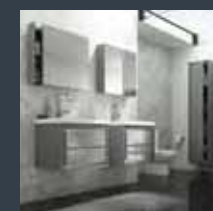

The most stylish solution for creating space; our Modular collections do just that.

### HANDLES

Add that finishing touch with a handle to go with any furniture choice.

### MIRRORS

Simple, sleek and slimline, our range of mirrors really does combine fashion with function.

# FITTED FURNITURE

Our Fitted Furniture can help you say goodbye to unsightly bathroom clutter with the most stylish solutions. Our ranges are modern, clean and offer ample amounts of storage space even for small bathrooms. Designed with quality in mind, our ranges feature all of the following, as standard.

## **ROBUST CONSTRUCTION**

18mm thick fascias, top panel and sides to provide a solid and robust construction.

## **SOFT CLOSE**

BLUM integrated soft close doors and drawer fronts to prevent slamming and protect the units over time.

## **ADDED RIGIDITY**

Drawer sides are metal for added rigidity.

## **METAL SUPPORTS**

Metal supports provided with units that feature internal shelves for added strength and durability.

# HAVANA FURNITURE

Havana offers warm and fresh shaker styling. The natural beauty of wood is captured in solid oak framed fascias for a distinctive look. For the perfect look all units are colour matched in oak inside and out.

## Havana Compact

### FEATURES

**BATH** Organic **WALL PAINT** Wickes Colour @ Home Bathroom Soft Sheen Brilliant White **BASIN AND TOILET** Belize **HANDLES** Flat End Bar

Where space is limited choose our Havana Compact option, offering slimline, shallow units that maximise floor space whilst providing ample storage space.

# VIENNA FURNITURE

The beautiful high gloss white slab design of Vienna creates a bright minimalist and modern look. Pencil rounded edges add depth, detail and a true quality feel. And for that stunning ultra modern look, choose **Vienna Curve** for a selection of curved end units.

## Vienna Compact

### FEATURES

**BASIN** Phoenix **TAP** Niagra **HANDLES** Arched Bow

Where space is limited, choose our Vienna Compact option, offering slimline, shallow units that maximise floor space whilst providing ample storage.

# HERTFORD FURNITURE

The on trend handleless Hertford range is a stylish and convenient fitted furniture range. With a lovely white gloss it would look stylish in any bathroom.

Manufacturer  
Guarantee\*

5 years  
on Fitted Furniture

A sleek modern fitted furniture option with easy to use, wipe clean integrated handles. The handleless design is right on trend, completing the look in any minimalist bathroom. Fitted furniture is the perfect solution for ample bathroom storage to tidy away all your bathroom necessities and keep your bathroom clutter-free.

# FITTED FURNITURE WORKTOPS

All of our worktops are available  
in 600mm and 2000mm lengths.

L

## LAMINATE WORKTOP

Durable and hygienic worktops  
that are easy to clean and maintain.  
28mm thick and available in a wide  
range of colours and finishes.

GE

## GLASS EFFECT

Glass Effect worktops use the  
innovative combination of two decors  
in one to create the appearance  
of a worktop layered with a solid glass  
sheet. Dual-Tone ABS edging  
emphasises the sharp, thin lines  
increasingly seen in today's  
bathroom market – making this  
product right on trend.

SS

## SOLID SURFACE

Naturally resistant to heat,  
mould, mildew and most staining,  
even tough stains are easily  
buffed away. Curved worktops are  
for the Vienna curved fitted furniture  
range. Solid Surface worktops  
do not require any sealing.

# MODULAR FURNITURE

Featuring the most cutting edge designs, our Modular Furniture Collection will add prestige to any bathroom. Quality furniture includes floorstanding and wall-hung basin units, matching tall wall units and mirror cabinets with ample storage space.

## PANEL-EDGING

The latest panel-edging technology has been applied to eliminate the risk of water getting in.

## SPACE SAVING

Our wall-hung units give you all the floor space, and the clever space saving storage options hide away the clutter.

## MODE DÉCOR

Our range of vanity basins and extra thick decorative worktops can be used either with or without storage drawer boxes for a look that is truly individual.

## SOFT CLOSE

For that extra quality feel and to protect the units over time, all doors and drawers are soft close as standard.

# MODE RANGE

The simple, modern, yet clean design of Mode brings a fresh and minimalist style to any bathroom. Available in White Gloss or Walnut, the range features Blum soft closing doors and drawers and the sleek tall units are available in tall and mid-height sizes.

The mirrors incorporate lighting and are available as panels or in straight and curved units that provide practical storage space and a shaver socket inside. The beautiful mineralised marble basin is incorporated into the wall-hung drawer vanity unit which is available in a straight or curved design for the ultimate designer look.

# A WELL DESERVED LONG, HOT SOAK

## BATHING

Bathing doesn't have to be purely functional. Whether it's a statement style feature, or a luxury whirlpool bath, Wickes has a bathing solution to cater to every need. From space-saving shower baths, to statement freestanding baths; you'll find them all in our range.

# FREESTANDING BATHS

Our modern Freestanding baths will be the focal point of any bathroom.  
All are made from Acrylic that's coated with fibreglass to provide strength and rigidity.

**Versa Bath**

# ACRYLIC BATHS

All our Acrylic baths are made from high grade white Acrylic that's supported with a baseboard providing rigidity and strength. Acrylic is warm to the touch and due to its natural insulating properties it keeps the water warmer for longer.

**Manufacturer Guarantee\***

Up to 30 years  
on All Baths

Some of our baths are fully encapsulated to give a higher heat retention and extra rigidity. For the ultimate luxury experience, a selection of our baths can also be converted into a whirlpool spa bath, see page 86 for more details.

# EASY ACCESS SHOWER BATH

Our bathroom suites are all about offering something to suit your lifestyle and that's personal to you.

Our Easy Access Acrylic Shower Bath is designed to make things easy for those who need practicality, without compromising on style. The shower bath comes in both right-hand and left-hand options to work to whatever layout you require, and also features a shower screen that opens right out, allowing direct access to the large, curvaceous bath and shower space.

**Canberra Easy Access Shower Bath and Screen**

- Water capacity 288L
- Undrilled tap holes
- H:583 (with screen fitted H:2143mm) W:750 L:1700mm (at widest point W:945mm)
- 10 year guarantee on bath, 1 year on electric door mechanism\*
- 6mm toughened safety glass
- Low threshold height allowing easy access
- Touch button electronically operated door
- Indicator light to show when the bath is fully sealed
- Bath screen folds into or out of the bath

**212823** LH Bath  
**212824** RH Bath  
**212821** LH Screen  
**212822** RH Screen

For a complete 'easy-living' suite, the Easy Access Shower Bath can be combined with the Elevation Basin and Semi Pedestal (107316/317) and the Elevation Toilet Pan, Cistern and Seat (107311). Please ask your Design Consultant for full details.

# STEEL BATHS

All our Steel baths are made from high quality Vitreous Steel which is extremely hard wearing and robust. The smooth, hard surface eliminates the absorption of dirt, reducing the growth of bacteria and mould to provide a much more hygienic bathing environment.

**Avaris Single Ended Steel Bath**

- Waste position: short end
- 2 tap holes
- 25 year guarantee
- Anti-slip coating provides a secure showering area and is integrated into the surface
- Includes bar handles

**Compact 90L**

**211607** H:390 W:700 L:1500mm

**Short 170L**

**209147** H:390 W:750 L:1600mm

  - 2 year guarantee\*

# MORNING REVITALISER OR AN EVENING RELAXER

## SHOWERING

Whatever the space available, we have a showering solution to suit you. Our walk-in shower screens and enclosures have the flexibility to be used with shower trays or wet room solutions to help you maximise your space and enhance your showering experience.

# SHOWER SCREENS, WALK-INS & ENCLOSURES

## SHOWER SCREENS AND WALK-INS

with or without a tray

Shower Screens

A frameless structure; shower screens can be fitted into open areas, recess or corners for a open and seamless design. Suitable for tray or wet room installations.

Walk-Ins

A contemporary and stylish showering solution consisting of multiple angled panels without the need of a shower door. Suitable for tray or wet room installations.

## ENCLOSURES

Quadrant

A curved design maximising the space inside, whilst taking up less space outside. Doors slide from each side into the surround to provide the largest access.

Offset Quadrant

A curved design with a larger internal space inside, whilst taking up less space outside. Doors slide from each side into the surround to provide the largest access.

Sliding

Overlapping panels that slide open, maximises space inside; an ideal space saving solution for a much larger enclosure.

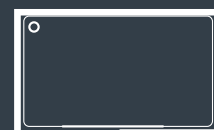

Bi-Fold

Doors open inwards and fold into each other preventing water dripping out onto the floor, ideal for small bathrooms where space is limited.

Pivot

Allows the widest opening of the door, providing maximum accessibility.

Recessed

Sliding, Bi-Fold and Pivot Enclosures are available as doors only allowing for a recessed installation.

## CREATE A WET ROOM LOOK ON A TRAY...

If you like the idea of a Wet Room but prefer the look of a tray, our Shower Screens can be used in conjunction with a Shower Tray. All you need to do is select the shower screen that fits your space and the compatible shower tray size. For a minimalist look, choose our 25mm high trays.

# WET ROOMS

Wet Rooms are the latest trend in showering – this open plan, walk-in option offers pure luxury hotel chic. Constructed to an ultra modern minimalist design, a wet room can be built to suit any space.

**Manufacturer Guarantee\***

L:220 D:220mm  
**220660**

**Wooden Shower Seat**  
L:500 D:350mm  
**211610**

Seat folds up to save space

# WET ROOM GUIDE

Our **LINEAR WET ROOM KITS** include all the parts you need to create a quick, easy and low maintenance showering area.

1

**CHOOSE YOUR GULLY, GRATE AND OUTLET**

2

**IF YOU HAVE FLOORBOARDS**

You'll need the tray to create a gradient for the water to run into the gully

3

**TANKING KIT**

The Linear Wet Room gullies have two grate options: the Tile Insert and the Drop pattern, available in three outlet options.

All outlets are self-cleaning and the channels have built-in falls to ensure there is no dirt or odour build up. The NOOD odour trap is built into the gullies to prevent any foul air escaping through the waste and the built-in spring mechanism ensures that the water trap always remains sealed, even if the trap is empty.

**1. Outlet Gullies** Low and Inline outlets are ideal for where there is limited space in the floor

**Side Outlet Gully**  
60L per min

**Low Outlet Gully**  
30L per min

**Inline Outlet Gully**  
60L per min

**Linear Channel 800mm Stainless Steel Grates**

**Tile Insert Grate**

Allows you to use the same tile in the grating for a sleek, minimalistic look and a continuous tile design across the floor. For floor tiles up to 10mm.

**Drop Grate**

For height adjustment of floor tiles 10-26mm.

**Side Outlet**

**106348** Linear Channel 800mm with Tile Insert Grate and Side Outlet

**106549** Linear Channel 800mm with Drop Grate and Side Outlet

**Low Outlet**

**106550** Linear Channel 800mm with Tile Insert Grate and Low Outlet

**106551** Linear Channel 800mm with Drop Grate and Low Outlet

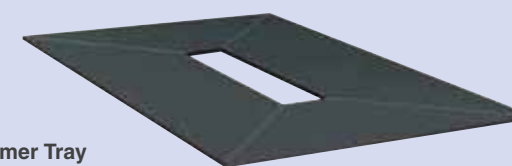

**Inline Outlet**

**106552** Linear Channel 800mm with Tile Insert Grate and Inline Outlet

**106553** Linear Channel 800mm with Drop Grate and Inline Outlet

**2. If you have floorboards**

Designed for use with the Wet Room Kits and Tanking kit, the tray is installed on top of the floorboards and has built in falls for water to flow into the gully.

**Former Tray**  
L:1600 x W:920 x H:18mm  
**106349**

**3. Tanking Kit**

The tanking kit is designed to waterproof plasterboard, concrete and marine ply in the wet room area before tiling.

**Wet Room Tanking Kit**  
Covers 8m<sup>2</sup>  
**212836**

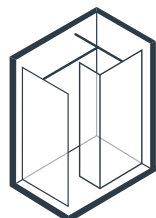

# WALK-INS

Minimal frameless walk-in enclosures give a truly luxurious showering experience. With no doors, just open panels joined to one another, they provide easy access and have bespoke trays. For the ultimate wet room look, some of our walk-ins can be installed directly onto a tiled floor by using a Wet Room kit.

Fitted without a tray using a wet room kit

# WHY DO WE NEED VENTILATION IN OUR HOMES?

The average family home produces approximately 15 litres or 27 pints of moisture per day, which can cause condensation – walls, ceilings, floors and soft furnishings can quickly show signs of black mould growth and rooms subjected to long periods of high humidity levels (above 70%) will be affected.

Bathrooms are a major investment – don't ruin yours and depreciate it with no or poor ventilation!

**Vent-Axia**

**Manufacturer Guarantee\***

Up to 5 years  
on Vents

For 80 years, Vent-Axia has set the ventilation standard. We are immensely proud of our heritage as a dynamic British manufacturer.

The Svara lets you control the quality of your air using an app

## Svara App Controlled Fan

The UK's first app controlled unitary fan

- Setup and control through the app via Bluetooth
- Continuous or intermittent
- Humidity and timer (via a light sensor) function
- Silent and purge modes available
- Silent hours scheduling function
- Intelligent light sensor with overrun timer
- 3 speed
- IP44 rated, DC motor

148818

(ducting not included)

**MANROSE**

## Manrose Showerlite Kit

- Inline fan design for increased air flow
- Built-in light for added convenience
- Designed for up to 3m ducting
- Fittings included
- Overrun timer delay

148825

**Vent-Axia**

## Vent-Axia Silent Fan

- World's quietest fan at only 14dB (A)
- Includes timer settings
- 15L per sec to meet building regulations
- Two speed settings

148819

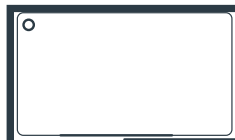

(ducting not included)

# FRAMELESS ROLLER ENCLOSURES

The stylishly designed smooth roller gliders effortlessly open and close the minimalist frameless doors. With a height of 2000mm, these enclosures are ideal for taller people who want a full showering experience.

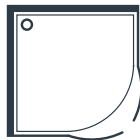

- 8mm toughened safety glass

Shower Trays

# SHOWER TRAYS

Complete your enclosure in style from a range of contemporary designed shower trays which are practical and functional. A choice of 25 and 45mm high, they are available in all shapes and sizes to suit every enclosure and screen we offer. For a raised installation, optional Easi Plumb riser kits are also available.

## 25mm High Trays

At just 25mm high, our acrylic capped ABS finished ultra low profile trays are our slimmest yet, giving a very modern and sleek look. Lightweight and extremely strong due to its integral body frame construction. Includes a top access waste which enables quick and easy access for installation and maintenance.

**Square**  
**217610** 760 x 760mm  
**217611** 800 x 800mm  
**217612** 900 x 900mm

**Rectangular**  
**217613** 1200 x 800mm (LH)  
**212842** 1200 x 800mm (RH)

**Quadrant**  
**217616** 900 x 900mm

**Offset Quadrant**  
**144271** 1200 x 800mm (LH)  
**144272** 1200 x 800mm (RH)  
**217617** 1200 x 900mm (LH)  
**212843** 1200 x 900mm (RH)

## 45mm High Trays

Our 45mm high trays are made from an acrylic capped ABS surface that is back filled with a cast stone matrix to ensure rigidity and durability. 30% lighter than standard cast stone trays, they are designed to be hard wearing, anti-scratch with a high gloss, non-discolouring surface. A 50mm waste is required with this tray (code 478410).

**Square**  
**142253** 760 x 760mm  
**142243** 800 x 800mm  
**142244** 900 x 900mm

**Rectangle**  
**142245** 1000 x 800mm  
**142252** 1000 x 900mm  
**142246** 1200 x 800mm  
**142247** 1200 x 900mm  
**142248** 1700 x 700mm  
**142249** 1700 x 800mm  
**142250** 1700 x 900mm

**Quadrant**  
**142251** 800 x 800mm  
**142254** 900 x 900mm

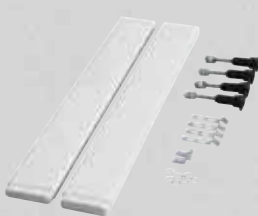

**Offset Quadrant**  
**142255** 1200 x 800mm  
**142256** 1200 x 800mm

## Easi Plumb Riser Kits

An optional riser leg and panel pack allows for a raised installation accommodating plumbing pipes and waste. The easy fit adjustable legs and panel clips allow a quick easy installation and maintenance access.

**For 25mm High Trays**  
**217618** For Square and Rectangular Trays  
**217620** For Quadrant and Offset Quadrant Trays

**For 45mm High Trays**  
**142257** Up to 760mm Square

- Internal Corner Profile • End Cap Profile • Adhesive • Clear Silicone

The quantity is tailored to the size of the shower kits chosen. Panels can be cut down to the required size.

Adhesive, silicone, profiles and end caps sold separately.

^Available in Laminate Panels only.

# SHOWERS

Wickes have a range of showers in designs from ultra contemporary to traditional. Some even have matching taps to complete the look of your dream bathroom.

## ELECTRIC SHOWERS

Provides constant hot water on demand, ideal for larger households.

## THERMOSTATIC MIXER SHOWERS

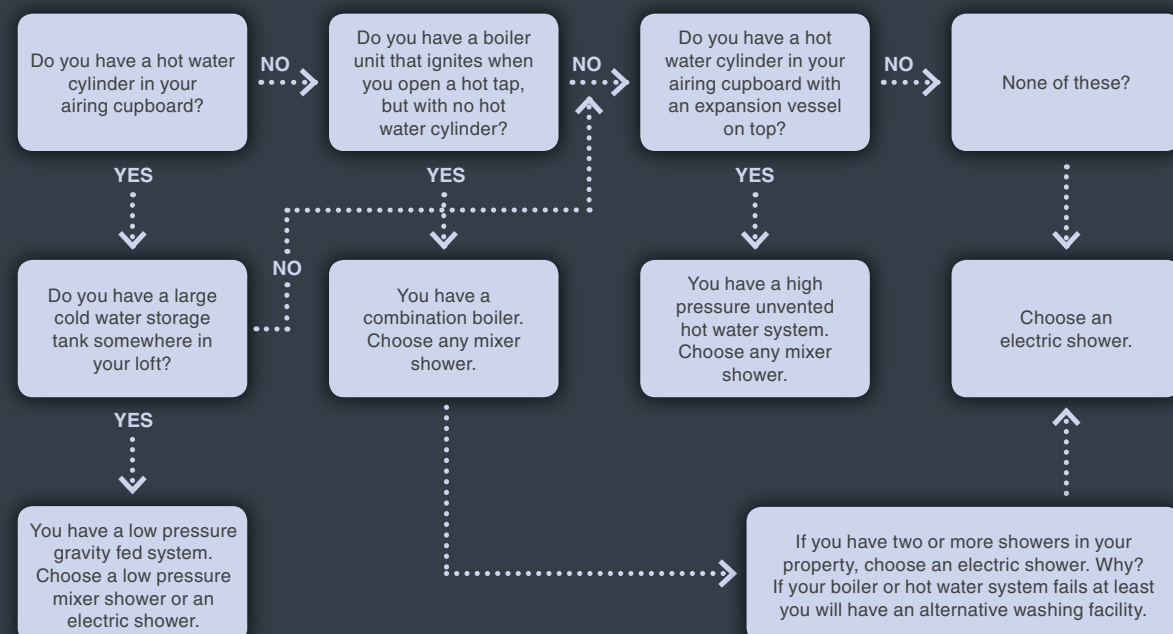

Provides a safe and consistent temperature whatever the flow.

## MIX AND MATCH SHOWERS

Select a fixed head, a riser rail and a thermostatic valve.

## IDENTIFYING YOUR WATER SYSTEM

There are three common hot water systems in the UK: Gravity Fed, Combi Boiler or High Pressure Unvented systems. Use the chart below to identify the system you have and which type of shower you can choose from<sup>^</sup>.

<sup>^</sup>If you are not sure as to which shower you need or are in any doubt as to the system you have, please obtain advice from a suitably qualified person before making a purchase or arranging installation.

The Great British Shower Company

**Triton is the UK's number 1 shower brand\*. For over 40 years Triton has been manufacturing quality showers in the UK and is proud to be everyone's favourite "Great British Shower Company."**

#### The benefits of an electric shower

Electric showers feed from the cold mains water supply, making them suitable for any home. They work by heating the water as it passes through an integral water heater within the shower unit, providing hot water 24 hours a day, 7 days a week.

#### Triton guarantee

All Triton electric showers are covered by a full 2 year parts and labour guarantee for peace of mind, supported by our industry-leading customer service department.

#### KiloWatt power rating (kW)

The higher the kiloWatt power rating (kW), the better the performance and the greater the flow of heated water. Check your rating label on your current shower or cabling as this will determine the kW to select. **NB: 10mm<sup>2</sup> cable is recommended for electric showers rated 9.5kW or above.**

\*Source BISTRA July 2016.

## Attraction

### Electric Shower

- Phased shutdown – when the shower is turned off, the water continues to run for a few seconds to flush out any pre-heated water before stopping completely to prevent lime scale build-up
- Easy plumb – Swivel-Fit™ for left- and right-hand side water connections for ease of installation
- LCD display with digital temperature read out
- Illuminated touch button start/stop – retains your preferred power and temperature settings

# THERMOSTATIC MIXER SHOWERS

Our thermostatic mixer showers incorporate a cartridge that maintains water temperature to within  $\pm 1^{\circ}\text{C}$ , so you can enjoy a safe and comfortable showering experience every time, even when other taps in the house are being used. For low pressure systems, simply install a twin impeller pump. All of our thermostatic showers have separate controls for flow and temperature, as well as an automatic shut off in the event of hot or cold water failure.

## 1 Revive

- Surface mounted
- Requires minimum 0.3 bar pressure
- Multi-function, easy clean handset
- Height adjustable handset on riser rail

212352

### ARTISAN EVO DIGITAL

## THE EVOLUTION OF THE MIXER SHOWER

The Artisan Evo Digital shower will give your bathroom the WOW factor guaranteed. Combining thermostatic and digital technology the Artisan Evo Digital shower will bring your shower into the 21st Century and provide the luxurious showering experience you are looking for.

The waterproof, wireless control can be placed anywhere in the bathroom or house, up to 10m away from the mixing valve and is available in white or black.

The mixer valve is small enough to be installed under the bath, in the loft or airing cupboard and will provide a stable water temperature (+/- 1°C) using thermostatic technology.

The shower has four settings, including an Eco setting, and a warm up mode to highlight when the shower is at the set temperature.

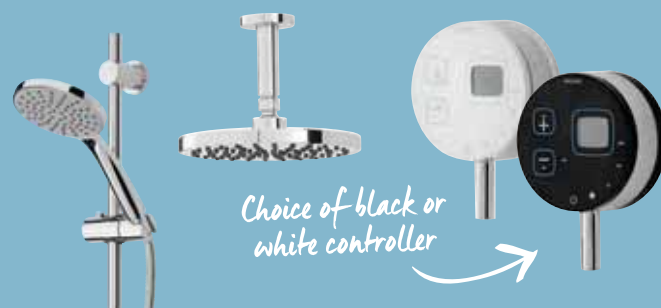

A minimum 0.5 bar and maximum 5.0 bar water pressures.

**RADIATING  
STYLE,  
QUALITY  
& WARMTH**

## **DESIGNER TOWEL RADIATORS**

A Towel Radiator is about more than just heating a room. With cutting edge styles, the radiator has evolved to become a reflection of a bathroom's design. Our range offers all kinds of options to heat both your bathroom and towels, giving you a warm and inviting experience each time.

# GLASS RADIATORS

Our frameless Glass Radiators use infrared technology to produce a healthier energy-efficient heat. Their slim design incorporates an innovative waterproof, touch screen control with built in sensors that control an even heat output to maintain the room temperature.

Available in three finishes for both Electric and Central Heating Water Systems and can be hung vertically or horizontally. The mirror option provides a condensation-free mirror and radiator in one!

## ELECTRIC

Includes a remote control that allows for a programmable 7 day timer and built in thermostatic sensors.

## WATER

Incorporates standard plumbing fittings for ease of installation into a new or existing central heating system.

Designed to fit onto our range of Glass Radiators to provide functionality of drying towels.  
**144273**

### To identify the BTU (British Thermal Unit) heat output required for the size of your bathroom:

1. Multiply the room height (ft), width (ft) x length (ft) to get the volume in cubic feet
2. Multiply the volume by 5 to get the required BTUs
3. To obtain the watts required divide the BTU figure by 3.412. (If the exact BTU is not listed, always choose the next size up if available)

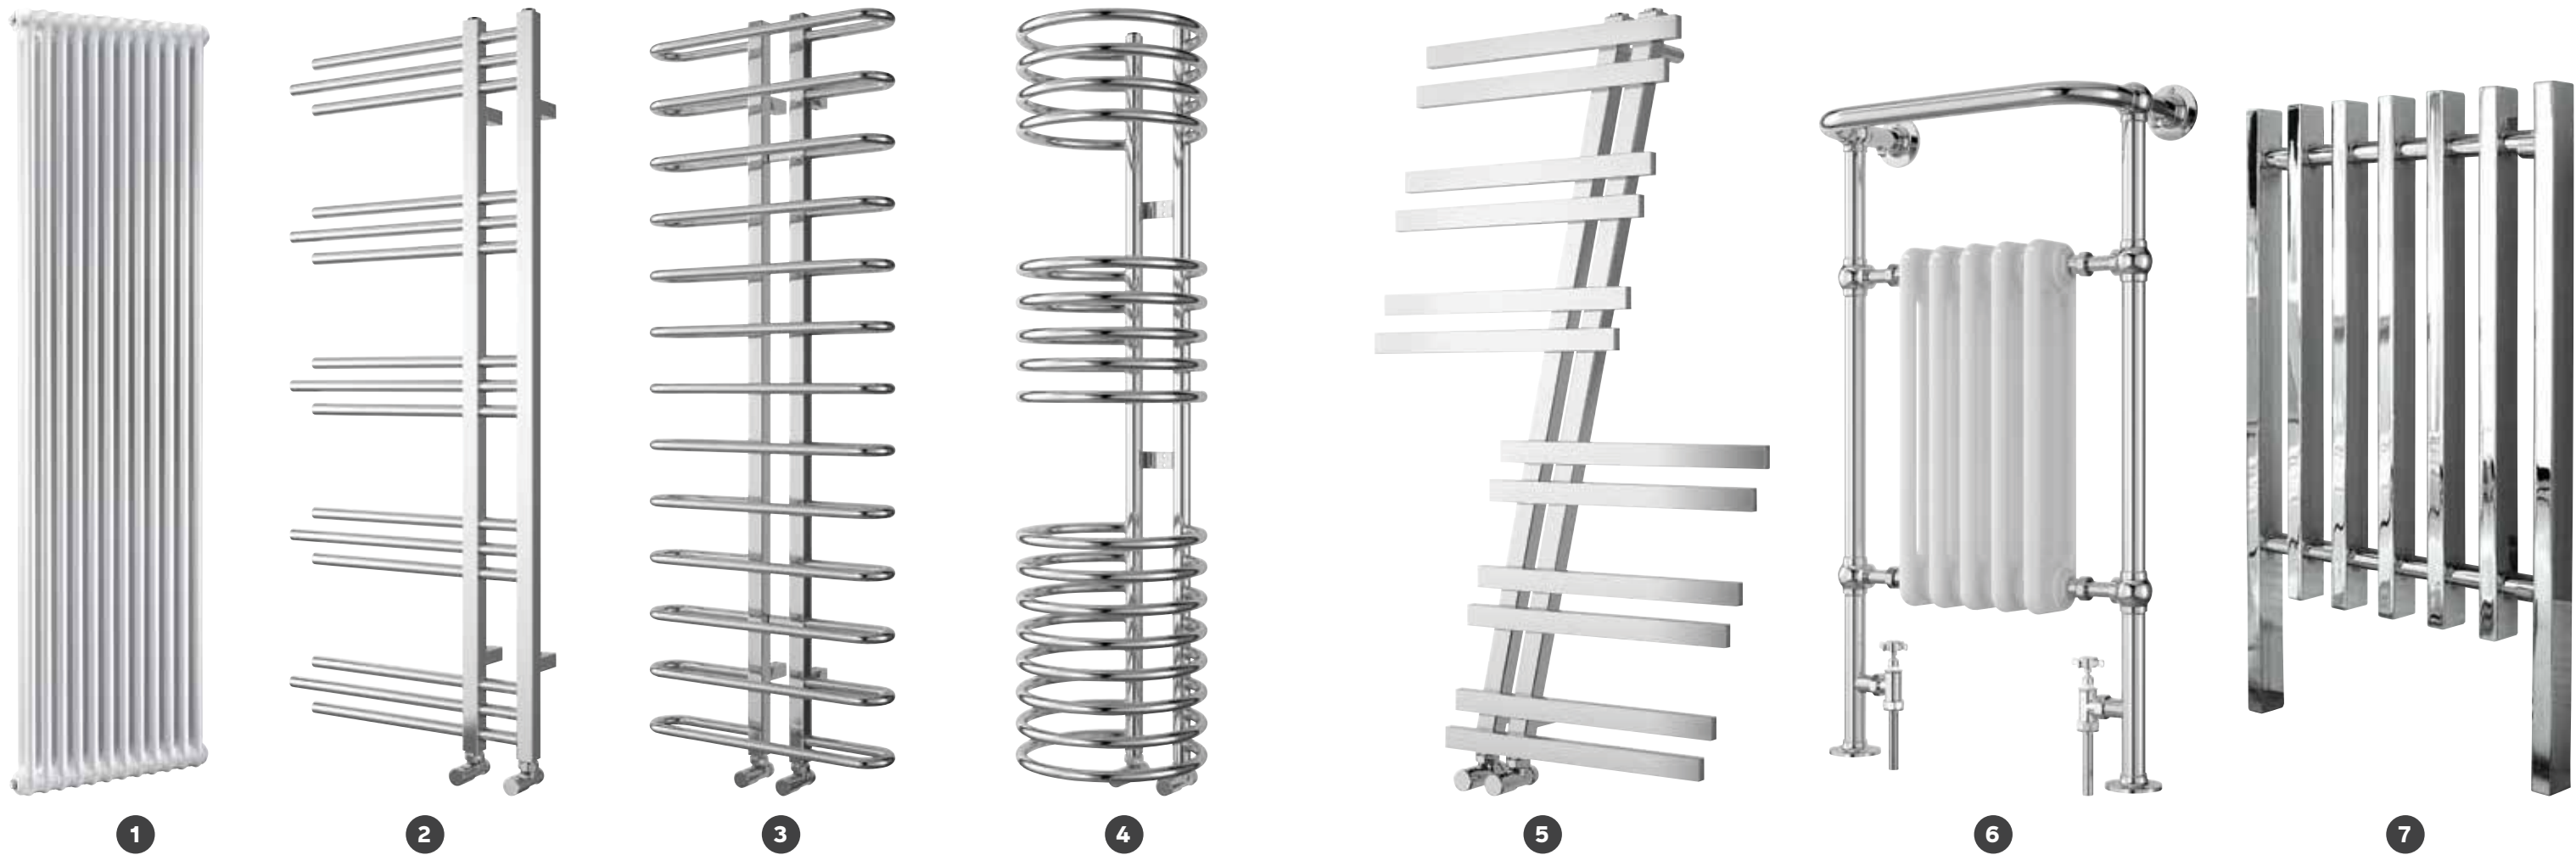

Some Towel Radiators can be fitted with an Electric Element so that it can be heated electrically, giving you a warm dry towel without the need to heat the rest of your home all year round.

## To identify the BTU (British Thermal Unit) heat output required for the size of your bathroom:

1. Multiply the room height (ft), width (ft) x length (ft) to get the volume in cubic feet
2. Multiply the volume by 5 to get the required BTUs
3. To obtain the watts required divide the BTU figure by 3.412. (If the exact BTU is not listed, always choose the next size up if available)

Some Towel Radiators can be fitted with an Electric Element so that it can be heated electrically, giving you a warm dry towel without the need to heat the rest of your home all year round.

# CHOOSE YOUR ELEMENT

Install one of our **ELECTRIC ELEMENTS** and continue to have warm towels without the need to have the central heating on.

1

**CHOOSE YOUR RADIATOR**

**Thermostatic Electric Element**

- Temperature settings ranging from 30-60° • LED display shows current and adjusted temperature and features an on/off button
  - Features built-in thermostatic sensor to prevent overheating and anti-freeze protection should temperature fall below 5-7° • Ideal for both fully electrical and dual fuel options • Supplied with T Piece
- 120992** White 300W   **120990** Chrome 300W  
**120993** White 600W   **120991** Chrome 600W

2

**CHECK ITS ELEMENT COMPATIBILITY**

3

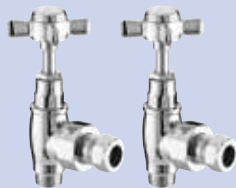

**CHOOSE YOUR REQUIRED ELECTRIC ELEMENT**

**Standard Electric Element**

- Automatic temperature limit turns off heater when the temperature of the element (+/-5°) reaches 65° • Easy switch on/off • Lighting ring around plug casing signals when it is functioning • Ideal for both fully electrical and dual fuel options • Supplied with T Piece
- 120996** White 300W   **120994** Chrome 300W  
**120997** White 600W   **120995** Chrome 600W

**DON'T FORGET YOUR RADIATOR VALVES AND ACCESSORIES**

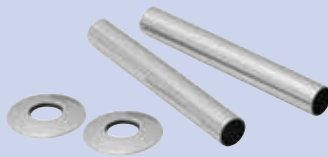

**Traditional Angled Crosshead**  
• Chrome • 1 pair  
**120998**

**Contemporary Square Corner**  
• Chrome • 1 pair  
**120999**

**Contemporary Round**  
• Chrome • 1 pair  
**121000** Corner  
**121001** Angled  
**121002** Straight

**Radiator Tube and Sleeve**  
**121003** Chrome

# PRODUCT GUARANTEES

For complete peace of mind when choosing your bathroom, we offer an exclusive guarantee on all of our bathroom products, including an outstanding lifetime guarantee on all of our wet room trays and gullies. Because of the nature of our products, these guarantees may vary between each category. To make this easier, we have broken it down by each category.

# TREND IDEAS TO INSPIRE & EXCITE

## TRENDS

It's often the tiles, paint, accessories and other all-important finishing touches that really bring the dream to life and make the room feel truly yours. If you're seeking some inspiration, we have carefully selected some emerging bathroom trends and combined them with product selections from our range to provide you with ideas to inspire.

**Bath**  
Cocoon Bath  
220643

**Wall & Floor Tile**  
Cappuccino Light Grey  
Gloss Ceramic  
221111

To add depth, mix and match different textures and substrates that contrast one another. For an added touch, customise your room with potted plants and foliage, and enjoy the great outdoors without even leaving your bathroom.

# NATURAL BEAUTY

Drawing inspiration from nature, this trend is certain to turn your bathroom space into a welcoming, serene environment. Utilising raw materials is key to this look; wood, stone and travertine in earthy hues all add to the natural feel.

# GREY ON GREY

Using grey as the main colour in your bathroom instantly creates a space that is timeless and neutral. Combine textures and prints to add a touch of noise, or keep patterns linear for a cleaner finish.

**Lighting**

Storm Bathroom  
Downlight Fixed Chrome

Slate  
121874

Maintaining a similar colour palette instantly makes for a calm and cool atmosphere, but adding a pop of colour can create a space that's a little more bold.

# MONOCHROME

This undying trend will never cease to be popular throughout any room of the home, but always makes for a sensation when used in a bathroom. The use of black and white makes for a bathroom style with endurance, but it is also a look that is completely versatile.

## Wall Tile

Bevelled Edge  
White Gloss  
166211

For a more graphical feel, introduce pattern through geometric or linear tiles; or complete the look with metallic accents such as a towel radiator to create a mono-industrial finish.

Wickes Building Supplies Limited, Vision House, 19 Colonial Way, Watford, WD24 4JL.

Wickes take every care to ensure that the product design, descriptions, specifications and techniques of constructing our products are accurate at the date of printing. We constantly strive to improve our products and this may result from time to time in changes to our ranges. Please check that design, descriptions, specifications and techniques of construction described in this brochure are still valid at the time of purchase. Colours in this Brochure are as accurate as the print process will allow. © Wickes Building Supplies Limited 2017. All rights reserved.
