What's hot in 2017?

We're always excited by new and innovative products, and 2017 has plenty of them. So we've pulled some of our favourites together and thrown in a little design advice too.

Rethink the Pink

Gone are the days when pink was a pretty shade reserved solely for a little girl's bedroom. 2017 sees pink boldly moving into the kitchen with dazzling effect. Our new Studio Berry cabinets promise to liven up any interior.

If opting for pink doors is a little too brave, try using it on just one wall and keep everything else neutral. With a little modern furniture and accents of black you can still create an interior where masculinity and pink can coexist.

Champagne Doors

Our new champagne doors are perfect for adding a little sparkle to your kitchen. Their stylish, light shimmer makes a refreshing change from simple matt or gloss.

Pocket Door

You don't have to use it as a cocktail cabinet but why not? This smart Pocket Door looks gorgeous when open, allowing you to display whatever you want, whenever you want.

Copper is still very much on-trend this year, whether it's in the form of sleek handles or modern accessories – this rose gold cocktail shaker we found is gorgeous.

The Lava Rock corian worktop shown here looks amazing next to the subtle shimmer of our Champagne doors.

Compact Worktop

Sleek, versatile and high-performing – what's not to love about the latest choice in worktop design? Compact worktops are a mere 12.5mm thick, making them a minimalists dream.

At Magnet we make sure flexibility is built in.

We want to make buying your dream kitchen as easy as possible.

So we give you the freedom and flexibility to buy your kitchen the way you want. There's three different ways to get started:

Bring your measurements in store for an instant quote

Just bring your kitchen measurements in store and one of our designers will give you a fairly accurate quote for any of our kitchens. It's then up to you if you want to get the ball rolling straight away, or we can double-check your measurements with a home visit if you prefer.

Try our online price configurator

At magnet.co.uk we've got a handy configurator that estimates how much your kitchen will cost. It uses the size of your space and the type of design you want - so feel free to have a play online and look at lots of different options. Then when you're ready, you can book a design appointment in store or online.

Visit our showroom and book a design appointment

Showrooms are still the best way to get a real feel for a kitchen. You can talk about the kind of kitchen you want with one of our designers and wander round the showroom at the same time. And if you like what you see, book an appointment for our designer to visit you at home.

Shape your kitchen perfectly with our Full Circle Service.

We want to help you create your dream kitchen, whatever your budget. Our Full Circle Service exists to do just that. Unique to Magnet, it covers the entire process of buying your kitchen, from start to finish and you are free to use as much or as little of it as you wish.

Home survey

Our designers are happy to visit your home to take accurate measurements and get an idea of what you want from your new kitchen. The designer you first meet will be your personal contact, and will look after your project from start to finish.

Smart Design

Because we only design kitchens, we're experts at it. We stay on top of the latest trends, technologies and design possibilities. Using the latest 3D technology, we'll create a computer generated image of how your kitchen will look from every angle.

Personalisation

We can recommend lots of ways to make your kitchen really 'yours', from stunning worktops to ingenious storage solutions and lighting. After all, we know you don't want your kitchen to look like everyone else's.

Made to order

Everything is made to your exact requirements. We have our own UK manufacturing plant and we only begin to build your customised kitchen after your order has been placed.

Installation

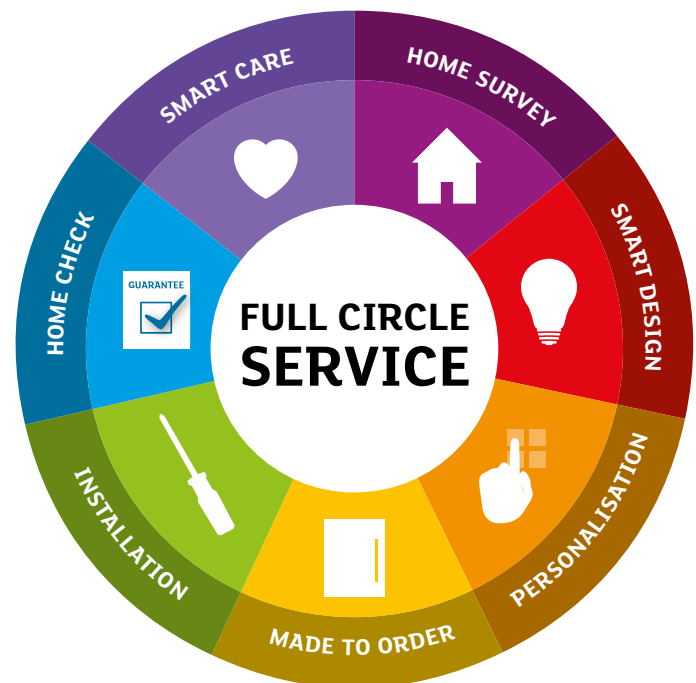

Our approved installers know Magnet kitchens inside out, so they get the job done quickly and efficiently. Their work starts with a pre-fit technical survey and ends with the issue of your 24 month workmanship guarantee. And for added peace of mind, we are operating members of the Government TrustMark scheme which means that our installers are selected, approved and monitored to ensure that they are 100% trustworthy.

Home check

If you choose our installation service, your Magnet designer will visit within 14 days to hand over your 20 year guarantee for rigid kitchens or 15 year guarantee for Simply kitchens. They will also check you are happy with the fit and help you get any issues resolved straight away.

Smart Care

If you've chosen Magnet to install your kitchen, and you'd like us to, we'll visit your home one year after installation to conduct a free Smart Care check. This means we'll give your kitchen a proper check over to make sure it's looking and performing exactly as it should be.

Arlington Cream

An impressive kitchen with lots of charm.

Decorative display cabinet with open-shelves - ideal for your favourite glassware, crockery or personal items.

Arlington Cream

We took inspiration from Edwardian design for this kitchen. The panelled doors, glazed units and decorative corners are a nod to the architecture of the era. When you add the pale painted cream finish and a Venato Blanco worktop to it, you end up with a stylish kitchen that feels quite grand.

Uniquely **MAGNET**
Somerton Fern

Somerton Fern

The smart earthy green paintwork on the cabinets make this kitchen a good fit for both modern and traditional homes. We like the way you can still see the grain of the wood showing through the finish. And granite worktops with stainless steel accessories work well together if you want the cabinets to really stand out.

Stylish, sturdy and spacious wooden drawers, for close-at-hand storage space.

A modern Shaker style with a painted finish.

Uniquely **MAGNET**
Somerton Sage

Optional, beautifully integrated luxury fridge/freezer, with ice-cold water dispenser.

Somerton Sage

This alternative to cream combines a light shade of green with a soft grey undertone. It creates a modern looking kitchen that works perfectly with a solid wood worktop.

We think this kitchen goes really well with a country cottage style. But you can easily personalise the look, so it's great in traditional or contemporary homes.

*A modern take

Uniquely **MAGNET**
Somerton Cream

Use two traditional larders side by side to create lots of storage space.

Somerton Cream

We like the way the clean lines of this kitchen work perfectly with the flat frame panelling, visible graining and chunky end panels. It makes for a simple and contemporary style.

There's a wide range of handle options and accessories, so you can put your own twist on this design.

A versatile kitchen for modern tastes.

Newbury Grey

With its moody, mid-grey matt finish, there's no denying the impact that a Newbury Grey kitchen will create in your home. A sophisticated, talking point design that's also packed with ingenious space-saving storage features like a built-in spice rack and a full-length larder unit. And there's plenty of opportunity to showcase who you are, with a beautiful display dresser that sets off your favourite pieces and most treasured items to stunning effect.

Uniquely **MAGNET**
Newbury White

Newbury White

A true kitchen classic complemented by a refreshing modern twist. The subtle, off-white matt finish and over-painted doors of Newbury White combine to give you a linear look that's stunning in its sheer simplicity. Yet there's plenty going on in this feature-packed design, including a floor to ceiling larder, an integrated island unit spice rack for neat and handy storage of essential ingredients, and a gorgeous free-standing dresser with shelf after shelf of stylish display space.

ShelfPlus designed to declutter your space whilst neatly storing and displaying anything you want them to.

Integra Fusion Blue

The fuss free handleless signature of our Integra kitchens combines with the durable, high gloss metallic finish of Fusion Blue to bring you a minimalist look with plenty of impact. Crisp and contemporary, with a sleek linear design that gives your kitchen a fluid, flowing feel throughout.

Uniquely **MAGNET**
Integra Fusion White

A modern design and high gloss finish.

A subtle silver trim on the edges of cabinets adds contrast between the doors and drawers.

Integra Fusion White

There's plenty of clever design packed into this kitchen. And handle-free cabinets and drawers keep it looking slick and modern, with a totally smooth appearance. A subtle silver trim on the edges of cabinets adds contrast between the doors and drawers.

You can have deep-pan drawers and a pull-out larder, or just create a simple wall design with repeating units. The glossy white finish is ideal for those looking for a contemporary feel.

Integra Fusion Cream

Integra Fusion Cream

We think this smooth, handle-free kitchen looks great in a glossy cream finish. The big island unit makes a great feature and offers lots of storage space, as well as an extra worktop area.

Uniquely **MAGNET**
Integra Alpine Oak

*Centre-of-attention island unit
with more space for everything,
from homework to food prep.*

Integra Alpine Oak

We've dropped the handles from this kitchen to keep it fuss-free and refreshingly simple. The textured horizontal grain adds to this too, helping everything to flow nice and smoothly.

And because the lighter grain is so versatile, you can match it with neutral colours or mix it with bold shades for a look that's all your own.

*Crisp, clean lines with a
distinctive textured grain.*

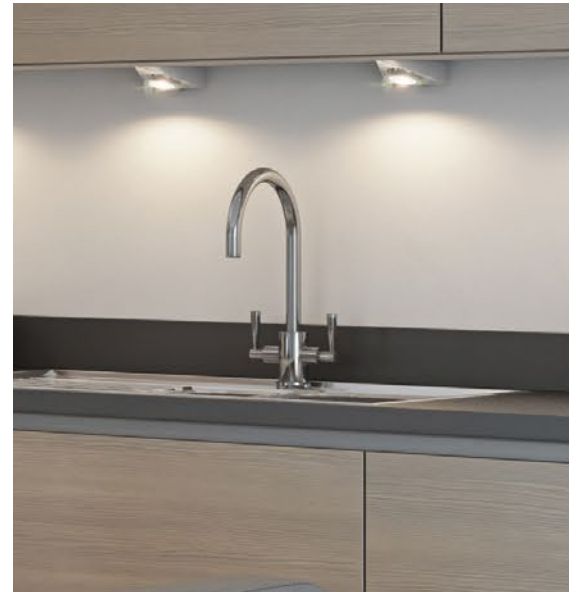

Uniquely **MAGNET**
Integra Alpine Grey

Integra Alpine Grey

Because this kitchen owes so much to the modernist style, we think it works beautifully with this unusual grey finish.

The clean lines of the handle-free units and understated colour mean there's plenty of opportunity to make features out of other things in your kitchen – it could be a granite worktop or your favourite appliances.

*A minimalist
textured grey finish.*

Uniquely **MAGNET**
Integra Alpine Graphite

For those with designs on family living.

Integra Alpine Graphite

This is the choice for you if you want a fantastic family kitchen without sacrificing on designer looks. The textured wood grain effect doors gives a feeling of warmth and without a handle in sight it's not only fuss-free but also ultra-sleek. We think an Alaska compact laminate worktop is the ideal choice to add a crisp fresh feel, while an Elica stainless steel seashell hood is just so chic.

For a kitchen as unique as you, try mixing this look with one of our other ranges. Or add matching open book shelves and a TV stand for open-plan living at its best.

Shaker Oak

*Attractive window seat,
for a homely,
welcoming feel.*

Shaker Oak

This kitchen works well when you're going for a rustic style. But we like the fact it can also be given a modern twist through different appliances and accessories.

Cabinet doors and drawers feature bevelled edges, this matches the curved floor and wall cabinets, and makes it feel more like a 21st century version of a classic kitchen. You can create extra stand-out through features like a stainless steel Belfast sink and matching bar stools.

A warm and homely rustic kitchen.

Purely **MAGNET**
Shaker Cream

Beautiful design and real craftsmanship.

Stunning, showcase display cabinet with soft curves, glass shelves and frontage.

Shaker Cream

America's Shaker community came up with this style in the 18th Century. To give it a bit of a modern makeover we've given you the option of soft curves.

We think it's a kitchen that looks the part, in both traditional and contemporary homes. Features like solid timber worktops and big Belfast sinks really add to the feeling of handmade quality when used with this range.

Purely **MAGNET**
Fusion White

Fusion White

A simple but stunning contemporary kitchen that demands attention, with its super high gloss finish and premium two-tone edging. The doors are bold, bright and very on-trend, and their neutral tone and clean styling gives you the freedom to mix them with different textures and a versatile palette of colours. Here we've teamed the cabinets with walnut worktops to great effect.

Simple and stunning contemporary styling.

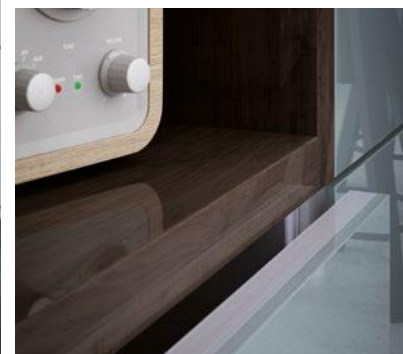

Purely **MAGNET**
Fusion Blue

Smooth-close bi-fold doors are a practical innovation.

Create a subtle colour contrast on cabinet doors.

Fusion Blue

This modern kitchen has a high gloss pale blue finish. It makes for a bright and open kitchen, but the surface is also really durable.

All the cabinet doors feature a contrasting colour trim that add a touch of style to the overall design. And you can even do the same with all the end panels by opting for a contrasting pear finish. Accessories like chrome arrow shaped handles can help you create a retro feel too.

A pale blue minimalist design.

Fusion Cream

Fusion in a cream finish is just as good looking as the blue, but it offers a more neutral colour on which you can create your kitchen.

You can still contrast the cabinets against pear coloured end panels and plinths, it just adds a little more stand-out. And then put your personal spin on it through your choice of handles, sinks and taps.

A simple but stylish look.

Purely **MAGNET**
Fusion Champagne

A shining example of contemporary design.

Fusion Champagne

A stunning fusion of chic metallic Champagne slab doors and striking duo tone silver edging makes this kitchen a showstopper. A true modern classic, this look is complemented by aluminium lip handles which give an effortlessly neat linear appearance that can't help but impress. Pair with Alpine Graphite square edge worktops and end panels, as shown here, to complete this celebration of style and sophistication.

Purely **MAGNET**
Planar Grey

Sophisticated, stylish and very contemporary.

Featuring corner larder unit offering ample storage.

Planar Grey

This latest addition to our popular Planar family of kitchens continues the successful formula of minimal design with maximum appeal. Integrated, almost invisible handles keep the lines smooth and clean, whilst the light grey gloss finish adds a stylish sheen.

A real highlight of the design shown here is the useful corner larder unit, which offers ample storage space for your day-to-day groceries and ingredients. It brings you all the convenience and practicality of a traditional 'pantry,' but with a look that's much more contemporary and sophisticated.

Planar Cream

The lovely curved end units are the first thing that jump out on this glossy cream kitchen. It makes for a very soft and modern feel.

We like the way the integrated handle design gives more emphasis and angles to the units, and keeps the uncluttered look at the same time. Solid oak worktops wrap around the floor units and give plenty of practical workspace, as well as just looking great.

Inspired by European minimalist style.

Purely **MAGNET**
Planar White

Soft, subtle and appealing curves for gently rounded good looks.

Planar White

The bright white finish of this design has a bit more stand-out. But of course it's still got the minimal design and the soft curves that make this style so popular.

Pictured here with black worktops, you can create plenty of contrast against the high-gloss cabinets.

A really simple and clean style.

Purely **MAGNET**
Studio Grey

A homely design with charm and character.

Studio Grey

Another member of the Studio family, but this time bringing a pale grey gloss finish to accentuate the on-trend minimalism. Available with curved units if you want to softly round things off, or non-curved if you prefer it neatly linear.

Nebraska Oak worktops and end panels add even more stand-out to a simple but striking design that you can accessorise with flair and freedom.

Purely **MAGNET**
Studio Cream

A curvy and contemporary design.

Studio Cream

The glossy finish of this kitchen is perfectly balanced by the soft cream colour. The curved units give a really modern feel and you can match that up with simple linear handles and solid wood worktops. You can make this more angular if you like, with non-curved units; we think it's cool either way.

Purely **MAGNET**
Studio White

Smoked glass display units set under cabinets, creates a stylish line-up that command attention.

Studio White With Vista Units

This is a simple but attractive design. The glossy finish of the units can work perfectly alongside contrasting laminate worktops. And try something like stainless steel sinks and taps matched up with straight, aluminium lip handles as an easy and effective way to continue the minimal look. We've added in some of our new smoked glass Vista units to the wall cabinets to add a bit of variety.

*Minimal and
contemporary style.*

Purely **MAGNET**
Leighton Grey

Plenty of extra worktop and storage space and a great social hub where you can chat and chill.

Leighton Grey

We've brought the traditional Shaker kitchen bang up to date, by giving it a sophisticated matt grey finish that works so well with the solid wood worktops. What you get is a best of both worlds look that combines the classic with the contemporary.

A traditional Shaker with a contemporary twist.

Purely **MAGNET**
Leighton Gloss White

Leighton Gloss White

Drawing its inspiration from classic Shaker simplicity, Leighton Gloss White cleverly mixes traditional design with contemporary soft curves. Corian sage worktops provide a striking contrast against crisp, white panels.

The sleek, gloss finish is complemented by steel handles.

Purely **MAGNET**
Leighton Gloss Cream

Whether you've got a traditional style to your home or a contemporary look, this kitchen can work perfectly in any type of house. The traditional cream colour and panelled doors are a classic design, but we've put this together with frosted glazed wall units and a modern breakfast bar island to really bring it up to date. Walnut worktops add a striking contrast in colour and curved end panels add an interesting feature.

Doing more, going further, thinking smarter

Smart Design and Smart Care are two of our recent ideas. Smart Design is our way of giving you the very best in kitchen planning and design. And Smart Care is all about customer satisfaction, offering you a free kitchen check up 12 months after we've installed your kitchen.

Both services offer their own unique advantages. But together, they mean Magnet customer service is better than it's ever been before; from the moment you buy a Magnet kitchen, to one year after we've installed it for you.

A complete wet fit for total reassurance

Our approved installers can take care of all gas, plumbing and electrics as required, so your kitchen is ready for you to use and enjoy as soon as we leave it.

And don't forget to go green

We've been looking for lots of new products to help you go green, from compartmentalised recycling bins to energy saving hot water taps. We want to make it easier for you to make little changes that make a big difference to the environment, and of course, we're constantly researching how we can go greener too.

Smart Design and Smart Care

SMART DESIGN

Magnet is the UK's largest kitchen retailer and part of the biggest kitchen group in Europe, so we're always up to speed with the latest design possibilities. That's why we don't just offer you an ordinary design service; we go one better and promise you Smart Design.

Our designers are trained on independently endorsed courses and provide a complete, one-to-one design service that's as good as it gets. We also invest in training academies across the country, so our designers are consistently of the highest possible standard. We believe that there's no such thing as 'one size fits all' when it comes to kitchen planning, so our experts will work closely with you to create a totally unique design. No matter what your tastes, passions, ideas, inspirations, budget, space limitations or appliance necessities, you'll always finish up with a kitchen that's perfect for you.

SMART CARE

At Magnet we do our best to stay one step ahead of everyone else, which means our products and services are constantly getting better. That's how we came up with Smart Care, the ultimate in after sales care. Smart Care is unique to us and designed to improve trust and confidence for customers who choose Magnet to install their kitchen. It means quite simply that we offer to visit you one year after installation and make sure that your kitchen is performing exactly as it should be.

Installed with care and attention

Installed with care and attention

No one fits a Magnet kitchen quite like a Magnet installer, so you can trust them to carry out the job to the very highest standards. Why are they so good? Because we regularly review and improve the skills and training of all our installers, as well as keeping them in the know on all the latest developments in kitchen fitting and legislation.

Expertly done from start to finish

Installation starts with a 'pre-fit' survey to give our experts a detailed understanding of the job, then goes on to include a complete 'wet fit', which means they also take care of any gas, electric and plumbing requirements. Our installers always try to complete a project as quickly, but as carefully, as possible, right down to tidying up and leaving your kitchen ready to use.

Keeping you safe

All Magnet installations comply with current Government legislation and we'll give you the right certificate to verify any work we do.

Two guarantees of excellence

When you have your kitchen installed by Magnet, you get a 20 year guarantee on rigid kitchen cabinets and a 15 year guarantee on Simply kitchen cabinets, and all our workmanship is covered for 2 years.

A thorough kitchen quality check, completely Free

If you request a Smart Care check we'll give your kitchen a full examination, from top to bottom. From the alignment of your cabinets to the condition of the sealant, we'll check every detail in depth and ensure your kitchen is still looking and performing as well as it did on the day it was installed.

When complete you'll receive a full written report, along with lots of top tips for helping to keep your kitchen in great shape for years to come. All you need to do is get in touch with us one year after you've had your kitchen installed to arrange your Smart Care appointment.

Visit www.magnet.co.uk/smartcare for more information and terms and conditions.
